EXAMINER'S AMENDMENT

1. The following is an examiner's statement of reasons for allowance:

The claims are allowable over the prior art of record because the prior art of record does not teach or suggest a fixing apparatus comprising a fixing device; an inductive heating device; wherein the heating device includes a core member and an excitation coil and the apparatus satisfies a relationship represented by $L/R \times 0.3 \leq B \leq D/3$, wherein D represents an inner diameter of the heat roller, L represents an inductance of the coil, R represents a resistance of the excitation coil; and B represents a width of a portion of the core member which opposes at least the heat roller.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art of Record

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Takagi et al. (2002/0030050A1) teach pertinent prior art.
